DO NOT CIRCULATE

- On 6 April 1951, nine twin-engine jet aircraft were seen flying over Zehdenick (N 53/U 70). *
- On 7 April, a northwest-bound jet plane of a **type** not previously observed flew over Zehdenick (N 53/Z 96) at 12:58 p.m. the plane had wings with a greater span than that of the MIG-15. **
- On 9 April, four jet aircraft were seen flying formation in the Werneuchen (N 53/V 06) - Oranienburg (N 53/Z 67) line, at an altitude of about 400 to 500 meters. About 30 to 40 minutes later, four planes of the same type came from the same direction.

25X1

25X1

- * **Comment.** the aircraft were flying in file of three, one after the other. This flight formation may indicate that the aircraft are bombers. The smallest formation of fighter units is a flight of four planes.
- ** **Comment.** For sketch of aircraft type, see Annex. The sketch indicates that the aircraft are probably jet planes similar to the type-12 plane. According to previous reports, 28 aircraft of this type have been seen at Oranienburg airfield.
